# GLOBAL E-CONFERENCE

On Smart Innovations in Engineering  
Systems and Technology - 2020

## SIEST'20

Date: 27<sup>th</sup> December 2020

## ABOUT JIT

Jagannath Institute Of Technology is located in Thandalam, near Thiruporur, just 1 km away from IT highway, Chennai. Sri Venkateshwara and Charitable Trust has promoted this institute, in 2008, with the sole aim of spreading sound technical knowledge to the student community of Chennai and suburb and the nation in general. JIT provides the right atmosphere to learn and grow. With this vision to impart quality technical education, the institute caters to the needs of all communities. High standards of discipline through its dedicated and committed staff providing competitive academic activities will be maintained giving an edge to its students.

The Institute offers 3 new courses in Engineering, Artificial Intelligence & Data Science, Robotics & Automation and Cyber Security. This Institute is equipped with latest development in Technologies. In addition to new courses the institute has highest placement records in various core and IT Industries.

## ABOUT CONFERENCE

This global conference aims to bring together leading academicians, industrialists, research scholars and scientists from overseas to exchange and share their experience and research results in computational models and recent trends in Engineering systems and technology. The SIEST-2020 serves as an outstanding platform for the scientific community members to meet each other and to exchange ideas. The global conference will also help professionals to manage all aspects of learning and creating opportunities for the next generation workspace to develop their professional skills.

The conference will promise to be an outstanding global platform for participants to share the knowledge. The three day conference will consist of keynote speeches, panel discussions, paper presentations in different tracks. Students of UG/PG and Research Scholar will have a unique chance to be acquainted with new and advance Information, Trends and Challenges in smart Innovations in engineering and system which will help them upgrade their careers, their respective organizations and the overall community
